**CONSTRUCTION INPUT PRICE INDICES**

**THIRD QUARTER 2022 RELEASE**

**SEPTEMBER 2022**

## **Construction Input Price Indices for the Third Quarter of 2022**

The Kenya National Bureau of Statistics hereby releases Construction Input Price Indices (CIPi) for the third quarter of 2022. The CIPi comprises of the Building Cost Indices, Civil Engineering Cost Indices and the Overall Construction Cost Indices as shown in Tables 1, 2 and 3, respectively. The indices were generated from price data collected from a representative sample of outlets of construction inputs. The data is collected quarterly, with reference to the 15<sup>th</sup> day of the mid-month of the quarter.

The Building Cost Index is an indicator that shows the trend in the cost of construction of new buildings. The Index declined by 1.65 per cent from 114.06 in second-quarter 2022 to 112.18 in the third-quarter 2022. This decline was mainly due to a drop in prices of cement, reinforcement steel, quarry products and glass products. However, there was a 3.14 per cent increase in the index for transport and fuels over the same period.

The Civil Engineering Cost Index decreased by 0.34 per cent from 115.05 as recorded in the second quarter of 2022 to 114.66 in the quarter under review. During the same period, the Overall Construction Cost Index decreased by 0.95 per cent from 114.47 in the second quarter of 2022 to 113.38 in the third quarter of 2022. The decrease was mainly due to a drop in the prices of cement, reinforcement steel and quarry products.

Table 1: The Building Cost Indices

| Base Period Dec 2019=100   |                                           |              |            |               |               |               |
|----------------------------|-------------------------------------------|--------------|------------|---------------|---------------|---------------|
